Pastel Xpress helps you manage your accounts so that you can get on with the job of running your business. As your business grows, Pastel's product range gives you access to greater functionality at the click of a button.

[Setup Assistant]

Pastel's Setup Assistant allows you to create a company in minutes. Answer a few simple questions, select from one of Pastel's templates, and tailor them to your business.

Service • Retail • Body Corporate • Construction • Garage / Service Station • Farming • Hotel • Non-Profit Organisation • Real Estate Agent • Food and Beverage • Church Accounts • Club Accounts • Professional Services • Medical Practitioners • School Accounts

[Inventory Items]

Pastel can track your inventory in as much detail as necessary. You can create product or service items, establish minimum and maximum stock levels and much more.

[The System Navigator and Explorer]

Finding your way around Pastel has never been easier. The highly intuitive and graphic System Navigator allows you to quickly perform common tasks using simple icons representative of everyday tasks. The Explorer allows you to easily add, edit and delete accounts, enquire about and find customers, suppliers, inventory items and general ledger accounts, invoke processing screens directly from the item selected, export lists to Excel, as well as group and filter data.

[Drill Down]

Pastel's drill down functionality allows you to click on an item from any report and see further details. No more navigating cumbersome reports or having to go backwards and forwards to retrieve information. Simply click on an item whilst in your report and drill down to the information you need.

[Invoicing]

Pastel allows you to enter invoices in a logical and intuitive manner. Save time, ensure accuracy and control back orders by linking quotations and sales orders. The Forms Designer interface makes it easy to customise stationery layouts of documents such as invoices, quotes, orders and labels. You can also customise forms for PDF documents that you e-mail.

[Easy Installation & Registration]

When you load your Pastel programme an easy to-use installation tutorial will load automatically. Simply follow the steps to install your software effortlessly. Also included with your software is a simple step-by-step Installation Guide offering detailed instructions on how to install your product. Pastel allows you the flexibility of registering your product online, twenty-four hours a day, seven days a week. Visit our website at www.pastel.co.za and follow the link to register your product.

South Africa's trusted business solution for quick and easy accounting

[Microsoft Office Integration]

Microsoft Windows 7 compatible

Pastel Xpress is compatible with Windows 7, having passed Microsoft-designed tests for compatibility.

Microsoft Office

Integrate your general ledger, customer and supplier data with Microsoft Office, and export customer and supplier contact information into Outlook. The 'Create Letters' and 'Labels Assistant' allows you to easily set up mail merge documents and labels through Word, automatically creating the required data sources and links.

*Microsoft Office 2000 and later required.

[Compliant with SA Legislation]

Pastel Xpress complies with the SARS requirement for issuing electronic tax invoices including the required 128 bit PDF encryption.

[Graphic Reporting Facility]

Keep your finger on the pulse of your business by using Pastel's graphic reporting feature to display business-critical information in a graphical format. For example, you can view trends in sales, inventory movement, expense allocation and more. Pastel's financial ratios allow you to analyse key areas of your business at the click of a button.

[PDF Printing, E-mailing and Faxing]

This standard feature allows e-mailing of documents such as statements, invoices, orders and quotations in PDF and HTML format. Each document layout has a corresponding PDF layout. The e-mail screen allows you to cc and bcc recipients and contacts from Outlook. You can also fax documents such as invoices, statements, orders and quotations straight from your Pastel Accounting package.

[Age Analysis]

Pastel's Age Analysis provides you with crucial information about your customers and suppliers. It lets you see outstanding balances by ageing period and assists you in prioritising collection of overdue amounts.

[Customers]

Pastel's flexible customer account setup allows you to configure parameters per customer. For example, you can set individual trading and settlement terms, select the e-mail and/or print option for invoices and statements, as well as create as many customers as you need.

[PASTEL COVER: 30 DAYS FREE]

Pastel Cover is a support plan which gives you all the help your business needs. As a priority customer with Pastel Cover, you'll ensure that your business runs smoothly and efficiently by always having support and maintenance for your mission critical accounting system. Unlimited telephonic support, free software upgrades and discounted training are just some of the benefits of subscribing to Pastel Cover.
